NEW Infant CPAP Nasal Masks

Fisher & Paykel Healthcare is pleased to announce the release of the new Infant CPAP Nasal Masks using 3D facial scan technology. This innovative design process is aimed at creating an anatomically-shaped mask with optimum fit and sealing capabilities. The nasal masks complement the **FlexiTrunk™** interface range.

Features:

- Soft silicone material
- Anatomically shaped for better fit and easier sealing
- Sizes fit wide patient range
- Connects interchangeably with nasal prongs on the FlexiTrunk™ interface
- Ideal size and depth prevents mask from touching the nose tip*
- Requires less force to seal
