Asunto: Track the status of your submission to Infectious Diseases of Poverty

Dear Mr Gustavo Fandino,
Congratulations on your manuscript submission to Infectious Diseases of Poverty. In partnership with Springer Nature, Research Square provides a private dashboard, where you can track the status of your manuscript (Magnitude and factors related to SARS-Cov-2 infection in the indigenous population of four municipalities in the department of Cordoba, Colombia) that is under consideration at Infectious Diseases of Poverty. To access your dashboard and start tracking the progress of your manuscript through peer review, please log in to your account:

Log in to your account

Although you chose not to share your manuscript as a preprint when you submitted it to the journal, you can still do so through your dashboard. Preprints are given a DOI and posted permanently online on Research Square, allowing for more collaboration opportunities, earlier citations, and community comments. If you are interested in this option, log in via the link above and then select "Post My Preprint".
Please note that the peer review process, including all editorial communications, will continue through the journal where you submitted your manuscript. All queries about the peer review process should be directed to the journal.
Let us know if you have any questions or feedback - we'd love to hear from you.
Sincerely,
The Research Square Team
Research Square
A preprint platform that makes research communication faster, fairer, and more useful.
