Sutura No Absorbible (Poliéster)

# ETHIBOND* EXCEL

Sutura No Absorbible (Poliéster)

**Sutura**
Sutura no absorbible de fibra de poliéster **ETHIBOND* EXCEL**.

**Tipos**
Trenzado.

**Color Del Material**
Verde y Blanco

**Materia Prima**
Poliéster de polietileno tereftalato recubierto con polibutilato.

**Retención De La Fuerza Tensil In Vivo**
Indefinida, no se conocen cambios significativos en vivo.

**Tiempo De Absorción**
No absorbible. Encapsulación gradual por el tejido conectivo fibroso.

**Reacción Tisular**
Reacción inflamatoria aguda mínima.

**Usos Frecuentes**
Para aproximación de tejidos y material protésico, en especialidades como cirugia cardiovascular.

**Presentación**
5-0 hasta 5.

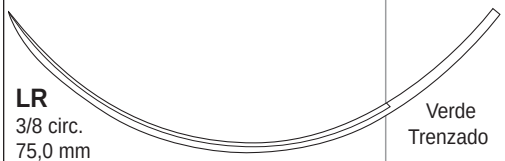

**Color Del Empaque**
Naranja.
