Activation instructions
Please go to https://account.pix4d.com/redeem?license_key=65e64ea2 and log in or create a new user account. Enter the License key that comes with this certificate to activate the license.

Download Software
Download the latest PIX4Dmapper at https://www.pix4d.com/download/pix4dmapper and use your Pix4D account to log in.

We also recommend you to have a look at the **Getting started** guide on our technical documentation at https://support.pix4d.com/hc/en-us/sections/360003718932-Getting-started. You will find all the necessary information on system requirements, software download, installation and first project creation as well as special articles that we recommend to new users in order to get the best out of their projects.

Pix4D is your software solution for digitizing reality and getting critical information from images by converting them into accurate, geo-referenced 2D and 3D outputs.
