Dentro de la estructuración de la operación de los programas se establece y es aprobado mediante el Comité Fiduciario del Patrimonio Autónomo FAIA celebrado el 15 de enero de 2024, la contratación de un BPO (Business Process Outsourcing), empresa que tiene por objeto contratar personal indicado por el MADR a través de la Unidad Técnica Ejecutora UTE para que oriente a la población municipal sobre los programas que implementa el gobierno nacional y así mismo contar con presencia institucional en principio en 215 municipios y que a la fecha (30 de mayo 2024) en 700 municipios determinados como de cobertura dentro de los programas del fenómeno del niño.

Dado el acrecentamiento en cuanto a los municipios de cobertura y que conlleva directamente a un aumento en la cantidad de personal en sitio, el proceso de contratación de personal para el desarrollo de los programas en territorio ha sido dinámico, en donde se resalta que la principal fuente de base de datos y recepción de los potenciales candidatos sigue siendo el Ministerio de Agricultura y Desarrollo Rural para así avanzar de manera satisfactoria.

Cara a informar sobre las actividades que adelanta el equipo en campo y en virtud de lo estipulado en el contrato de prestación de servicios No. 001 suscrito con este proveedor logístico.

- Realizar y asistir a capacitaciones, encuentros, jornadas especiales o actividades que sean programadas dentro del marco de la ejecución de los programas FAIA fenómeno del niño o los que requiera e instruya el MADR.
  Se resalta que para el desarrollo de capacitaciones o jornadas especiales que se programan, el equipo técnico de la UTE suministra del material necesario de apoyo para así facilitar la capacitación en la jornada, acercándonos con ello, a la expansión de la divulgación a los pequeños productores.
- Apoyar técnica y diligentemente en la recolección de la información y datos que sean necesarios en desarrollo de los programas FAIA fenómeno del niño.
- Alimentar semanalmente los precios de insumos agropecuarios que hacen parte de la canasta ofertada y establecida dentro de los manuales operativos de los programas.
  Esta tarea se determinó como un paso importante dentro de sus labores diarias, y en virtud del proceso operativo propios de los programas; los orientadores realizan la actualización dentro de la herramienta tecnológica para que así los almacenes puedan ofertar las diferentes marcas del insumo y que a su vez el pequeño productor tenga una oferta dentro de la canasta autorizada.
- Acompañar a los pequeños productores durante todo el proceso de inscripción, en donde le lleva por cada uno de los pasos establecidos dentro de la herramienta tecnológica para ello.
  En el punto de atención designado o durante las jornadas de FAIA Proactivo, que se llevan a cabo para la socialización, promoción e inscripción de beneficiarios de los programas, se proporciona al pequeño productor toda la información necesaria. Esto incluye cómo acceder al programa, los beneficios, los requisitos, la canasta ofrecida e incluso el uso de los productos, si así lo solicita.
- Apoyar al pequeño productor para que este realice su selección, pago, compra y adquisición de los Insumos agropecuarios dentro de la canasta autorizada y que sean de su preferencia.
  El orientador proporcionará información de primera mano. Sin embargo, si el solicitante requiere de información con un enfoque más técnico, el orientador redirecciona al pequeño productor al profesional técnico o coordinador de zona, quien brindará orientación adicional por vía telefónica.
- Informar a los Coordinadores externos sus labores y actividades adelantadas de manera periódica, con el fin de establecer seguimiento y puntos de mejoras de conformidad con la dinámica del municipio asignado.
- Socializar, divulgar e impulsar los programas en los municipios asignados, con base a los lineamientos dados por el equipo de la Unidad Técnica Ejecutora no solamente dentro del casco urbano, sino también en jornadas efectuadas en los espacios rurales, reuniones con líderes, invitación de entidades, emisoras o medios locales y con el apoyo del material entregado.

- Articular la información que se entrega en el municipio designado frente a los programas con los diversos actores de la zona, gremios y entes territoriales para que sean a su vez facilitadores en la socialización de los programas.
- El orientador municipal si a bien lo considera realiza sugerencias que permitan mayor cubrimiento en la divulgación de los programas, conociendo las condiciones específicas del municipio de atención.
- Propender por el buen uso de las herramientas e implementos asignados (dotación, equipos tecnológicos, físicos), garantizando el buen nombre de las entidades como son: Ministerio de Agricultura y Desarrollo Rural, Fiduagraria, Consorcio FAIA y de los Programas.
- Validar la información presentada por los pequeños productores de acuerdo con los requisitos establecidos por el manual operativo de cada uno de los programas; esto previo al efectuar el proceso de registro dentro de la herramienta tecnológica, como filtro inicial del proceso de inscripción. Así mismo, si se presentare alguna situación durante el proceso se escala al analista designado por la Unidad Técnica Ejecutora.
- Informar a los pequeños productores del proceso, puntos de atención, fechas u horarios para la entrega de la compra.

Es importante resaltar la necesidad de contar con más de un orientador municipal por municipio esto debido a la afluencia de pequeños productores que se acercan para obtener información del programa y por los eventos que se realizan, los municipios que contaban con dos orientadores a la fecha de corte del presente informe son:

Otros actores importantes en la región son los coordinadores de zona, quienes se encargan de organizar y apoyar las labores del orientador municipal. Además, brindan acompañamiento, realizan seguimiento y ofrecen asesoría en respuesta a las consultas que surjan durante la operación diaria de los programas. Estos son además los interlocuto res de las acciones internas y municipales de conformidad con las particularidades de los programas.

Se enuncian algunas de las principales actividades que adelanta este equipo:

- Proporcionar asesoría y capacitación integral sobre los programas a los profesionales técnicos y orientadores municipales, además de ofrecer orientación frente a cualquier inquietud presentada.
- Acompañar a los orientadores municipales en territorio, proporcionando apoyo en temas administrativos, comerciales y técnicos, así como en el establecimiento de estrategias que faciliten la ejecución de los programas.
  Según la estructura operativa y distribución geográfica que esta unidad ha establecido para la atención regional, cada coordinador ha sido asignado a una región específica. A su vez, cada coordinador cuenta con un grupo de orientadores municipales, con quienes traza estrategias específicas para su zona de influencia.
- Informar sobre las situaciones, novedades o inconvenientes que se presenten durante la operación diaria de los programas en zona, así como las situaciones que bloqueen el óptimo funcionamiento de las labores del personal en territorios.
- Asistir cuando se requiera a encuentros, eventos, brigadas, jornada o actividades programadas para la amplia difusión y socialización del programa.
- Apoyar al equipo central de la Unidad Técnica Ejecutora en la recolección y organización de la información y datos necesarios para responder a los requerimientos
- Realizar seguimiento al cumplimiento de funciones de los orientadores municipales y los asuntos acordados contractualmente.
- Presentar informes requeridos de los avances, metas y soportes de ejecución de los programas en la zona asignada.
- Realizar seguimiento y supervisión a las zonas asignadas, analizando su comportamiento, desempeño de cada uno de los orientadores municipales asignados.
- Supervisar y monitorear las actividades, novedades que se presenten e informar al equipo asignado de la Unidad Técnica Ejecutora.

En región, se dispone de un equipo técnico especializado en el sector pecuario y agrícola. Este equipo está preparado para abordar consultas de carácter específico y técnico que elevan en primera medida los orientadores municipales, coordinadores de zona e incluso los pequeños productores en sitio. Los integrantes de este equipo deben poseer titulación en áreas como producción, agronomía, biología, veterinaria o zootecnia.

Cuando surgen consultas específicas, como los componentes de un insumo incluido en la canasta, la cantidad requerida según las hectáreas y la forma adecuada de aplicación del insumo, estos temas son abordados y dirigidos por los técnicos.

Además, estos técnicos profesionales proporcionan acompañamiento en territorio, virtualmente o por teléfono, durante capacitaciones, socializaciones, divulgaciones y diversos eventos organizados por los coordinadores y orientadores municipales para promover los programas a nivel nacional.

La gestión coordinada por el equipo de campo se apoya en el equipo base de la Unidad Técnica Ejecutora UTE ubicada en Bogotá. Este equipo enlaza las actividades realizadas en cada municipio para dinamizar las acciones del personal en el terreno. Esta coordinación eficiente facilita la ejecución efectiva de los programas en todo el territorio nacional.

## RESULTADOS

### PROGRAMA CAFÉ

Cara al Programa Café, daremos un breve resumen de los avances a la fecha del presente informe.

El crecimiento en inscripciones ha presentado un aumento del 288% cerrando con 40.931 pequeños productores inscritos para el mes de mayo de 2024 versus 10.536 pequeños caficultores en el mes de abril; satisfactoriamente se muestra un avance significativo como resultado de la gestión del Programa de Café.

Los rechazos para la fecha de corte ascienden a 1.016 personas, quienes posterior a realizar el proceso de inscripción y frente al cruce de información y requisitos establecidos para participar en el programa se determina que no cumplen por el motivo de la afiliación al SISBEN.

De acuerdo con el levantamiento de las causales de rechazo por concepto de participación de los pequeños productores en programas anteriores del MADR y por haber sido beneficiados dentro del programa de apoyo a pequeños productores para la compra de insumos a través de instrumentos financieros y apoyándose en el contact center se realizó gestión de contacto con cada una de las personas dentro de la base de datos, en donde se obtuvo los siguientes resultados:

| Observación | % |
|---|---|
| No contesta | 33% |
| Se entrega información | 30% |
| Se dejó mensaje | 29% |
| Volver a llamar | 3% |
| Línea fuera de servicio | 3% |
| No le interesa | 2% |

Se observó que muchos de los números de teléfono registrados en los formularios de inscripción pertenecen a terceros (familiares o amigos), por esta razón, se les notificó y se les proporcionó toda la información pertinente para que se acerquen nuevamente a los puntos de atención. Además, algunos de estos teléfonos se encuentran ya fuera de servicio o no respondieron durante el primer intento de contacto.

Por otro lado, se ha realizado un seguimiento de la cantidad de pequeños productores rechazados debido a la causal del SISBEN para observar así su evolución (reportado semanalmente en los comités de seguimiento respectivos) para facilitar el análisis porcentual y la participación de esta limitante frente al universo de inscripciones, así como de la población objetivo, para mayor ilustración se presenta la fecha:

En otra etapa del proceso se destaca que existen 213 solicitudes han sido devueltas a los almacenes para que realicen el proceso de revisión de la documentación entregada a esta Unidad ya que producto de la validación se encontró que presentan algún tipo de inconsistencia en la factura cargada, que deberán corregir y remitir nuevamente para así continuar con el debido proceso. Adicionalmente se presentan 1.108 solicitudes que se encuentran aún pendientes para que el almacén realice el respectivo cargue de la factura en la herramienta tecnológica y así continuar con el debido proceso, dejando claro que este proceso ya es netamente un trámite directo del almacén agropecuario con esta Unidad y que se entienda que el pequeño productor ya cuenta con el insumo que adquirió.

Para el cierre del mes de mayo de 2024 se cuenta con el pago de 21.704 pequeños productores equivalente al 25,1% sobre la población objetivo del programa café, correspondiente a la entrega de apoyos por la suma de $11.869.183.077 representando un 22% sobre el total de recurso asignado para beneficios en este programa ($53.951.124.552).

Cabe nuevamente resaltar que dentro de las sesiones efectuadas de Comités Fiduciarios, efectuadas durante el mes de abril de 2024, se autorizó que dentro de la reglamentación de los programas, que del total de los recursos asignados para los programas no se tendrá un valor techo asignado a cada departamento y/o insumo, si no como señala el ente rector regirá una “Bolsa Nacional” y este recurso se entregará de acuerdo a la dinámica de operación y desarrollo de los mismos, convirtiéndose ya no en una limitante para entregar apoyos a algunos departamentos que han mostrado mayor interés y sobre todo decisión de compra.

Se destaca el Departamento del Huila con 7.374 pequeños caficultores con un apoyo por la suma de $15,553,6 Millones de pesos con un % de participación frente a la entrega de apoyos de un 39%, seguido de los departamentos de Cauca y Tolima tal como se muestra en la tabla anterior.

Del total de pagos realizados a la fecha corresponde a un 22% frente al total del recurso asignado para entrega de apoyos en el Programa Café.

## PROGRAMA INTEGRAL

Con el objetivo de impulsar los resultados del programa integral, durante las sesiones semanales de seguimiento desarrolladas en el mes de mayo de 2024 se propuso incluir la opción de adquirir insumos a través de almacenes agropecuarios. Esta alternativa fue aprobada y el Ministerio de Agricultura y Desarrollo Rural, como resultado mediante correo electrónico de fecha 21 de mayo de 2024 remite el Manual Operativo correspondiente. Este manual establece que el apoyo podrá entregarse mediante dos modalidades: compra centralizada y compra de insumos a través de almacenes agropecuarios.

Posterior a la recepción de dicho documento esta Unidad articula e implementa algunas actividades para llevar a cabo esta nueva modalidad, lo que implica coordinación, recapacitación de personal, adecuación de herramienta tecnológica, reorganización de logística, entre otros.

Para el cierre del presente informe se presentan las siguientes cifras:

Los pequeños productores clasificados como habilitados, se ha evidenciado que a pesar de cumplir con los requisitos establecidos dentro del programa y denominados como aptos, no han realizado la continuidad del proceso y realizado la selección de insumo y culminación de compra.

Por otro lado, se ha realizado un seguimiento de la cantidad de pequeños productores rechazados debido a la causal del SISBEN para observar así su evolución (reportado semanalmente en los comités de seguimiento respectivos) para facilitar el análisis porcentual y la participación de esta limitante frente al universo de inscripciones, así como de la población objetivo, para mayor ilustración se presenta la fecha:

## COMUNICACIONES

La difusión y socialización de los programas son esenciales para su desarrollo continuo. Por esta razón, esta unidad utiliza todos los canales de comunicación disponibles para alcanzar este objetivo. No solo se emplean los medios de comunicación tradicionales, sino también el valioso componente del voz a voz, en donde nuestros actores ubicados en el territorio desempeñan un papel crucial en esta tarea, apoyándose en el material diseñado específicamente por el área de comunicaciones para este propósito.

Así mismo, la participación en eventos, convocatorias y jornadas a nivel nacional se utiliza como una estrategia clave para la difusión de los programas

De otra parte, se han realizado entrevistas radiales en algunos medios de comunicación locales.
