General Information

- The purpose of the Michigan English Test (MET) is to evaluate general English proficiency in educational, social, and workplace contexts.
- The MET is aimed at levels A2 to C1 of the Common European Framework of Reference (CEFR). See reverse for an explanation of how section scores on the MET correspond to the CEFR.
- The overall score and CEFR level reported are averages of the sections tested.
- A section score of X means the test taker was exempt from that section. A section score of 0 means the test taker did not attempt the section, or their answer was not on topic.
- MET scores represent a test taker's English language proficiency at the time the test was taken and are valid as long as the test taker's level of proficiency does not change. Because language proficiency can change over time, score users are advised to consider the test taker's experience with English since the time of the test administration in addition to the test scores themselves.
- If the exam location is listed as Remote, the test was taken in a location other than on-site at a test center. Multiple security measures are followed for remote exams. More details are available at MichiganAssessment.org.
- Authorized institutions may use the verification code to ensure the validity of results. Learn more about verifying test results at MichiganAssessment.org.
- Michigan Language Assessment reserves the right to update results or test taker information.
