Today I will talk about one of the most visited sites in the city of Cali, the monument of Christ the King, this has a height of 30 meters and was made by the Italian Alideo Tazzioli, it was inaugurated in October of nineteen hundred and fifty-three, to commemorate the end of the war of a thousand days, It is located on one of the tutelary hills of Cali, you can go by road or by a pedestrian path, from where you can observe the city and part of the flora, birds and other species of our fauna. On arrival you will find restaurants and craft shops, there is also a convention center. Thank you very much for your attention
