Details of Foldable Rain Barrel

Dual-way Zippered

Featuring a two-way separating zipper, our rain barrel effortlessly expands and contracts, simplifying setup and storage for your utmost convenience.

Spigot with Switch

Our rain barrel includes a switch-operated faucet, allowing easy control over the water flow's start and stop, ensuring a hassle-free experience.

Water Inlet Filter

The water inlet filter at the top improves rainwater purity by minimizing contamination in the barrel, ensuring a cleaner collection process.

Water Overflow Outlet

An overflow opening is designed into the rain barrel to automatically discharge excess water, maintaining a safe level of rainwater collection.

Use the Repurposed Water for Your Various Life Scenarios
