# INFORME DE ACTIVIDADES REALIZADAS
# CENTRO DE SERVICIOS DE PSICOLOGIA EQUILIBRADAMENTE
# TALLER BENEFICIOS DE MANTENER PATRONES SALUDABLES: COMO AFECTAN A LA SALUD FÍSICA, MENTAL Y EMOCIONAL

**Fecha:** 7 de octubre de 2024

**Objetivo:**
Psicoeducar a los adultos mayores del hogar geriatrico CENILANDIA sobre la importancia de la comprensión y práctica de la convivencia en comunidad entre los residentes.

**Desarrollo**

La actividad se realizó a las 9:30 am en las instalaciones del hogar, donde se inició con una actividad rompehielo. Seguido a esto se realiza la conceptualización de conceptos relevantes:

la comunicación asertiva, el respeto mutuo, la solidaridad y el sentido de pertenencia, para mejorar el bienestar colectivo y fortalecer las relaciones interpersonales dentro del entorno comunitario

Luego se lleva a cabo una actividad con una reflexión centrada en una pregunta clave que aborda el tema: ¿Qué es lo que más valoran de vivir en comunidad? Abrir un espacio de diálogo breve donde puedan compartir sus experiencias, para ello, se hizo uso de materiales donde ellos construían las palabras a través de una simbología para así poderlo colocar dentro del árbol de la vida (construido durante el taller) sintetizando esas experiencias en una palabra que describiera lo que es convivir en comunidad.

**Número de participantes:** 6 adultos mayores.

**Concepto profesional**

Se ha observado que un grupo ha mostrado una participación activa, evidenciando mejoras en su discurso, actitud hacia las profesionales y actividades, así como en sus habilidades motoras finas. Es importante señalar que no se espera que los adultos mayores realicen las actividades de manera perfecta; en cambio, se valora su actitud, disposición e intención de participar. Durante el proceso, se enseñan y retroalimentan las habilidades esperadas según el taller. Cabe destacar que

este informe no tiene como objetivo diagnosticar el estado psicológico de los adultos mayores, ya que la actividad no estaba destinada a evaluar su salud mental.

**Conclusiones y recomendaciones**

De acuerdo a lo comentado anteriormente, se concluye que si se han evidenciado resultados positivos que se expresan en la apertura y el lenguaje no verbal y verbal de cada uno de los adultos mayores que participan en los talleres, lo cual permite de la misma manera que los temas propuestos, en este caso sean más orientados a la prevención del deterioro cognitivo de los adultos mayores. Por lo cual, se recomienda seguir realizando actividades como estas que permitan el goce de sus propias habilidades y la promoción de buenos hábitos que permitan que mejore la calidad de vida de ellos dentro del Hogar geriátrico.
