2 nd october

We will work on the video ; the taste of the food. They wrote the words that describe the taste of the food, we practice presentations and we practiced verb to be + Numbers + i love chocolate.

Note: next class we will describe one element from the kitchen , " food" and they will change it into question and answer affirmative and negative form.

The cake is sweet. Is the cake sweet? Yes, it is / no, it is not

9 th October 2024

We practiced the video again "taste of food" , they did 4 questions and they had to answer the questions ; they did it by heart. Next they started with the copies , so i had to give them back next class, so they will finish the activity and we will start the new topic. " simple present tense"

16 th October 2024

They will finish the copies + they will have to write 5 sentences using the adjectives from the video + the food names from the copies+ they will have to change the sentences into questions.

We will start the new topic + simple present tense. They did one sentence "speaking" practice from the verbs from the copies " superguau + Example; i play tennis/ i enjoy the party.

We studied the thir rule and they changed all the verbs from the copies super guau into the third person form .

Next class: we will practice questions do/ does + affirmative and negative answers.

23 rd October 2024

We will do the copies super guau + they will have to do an interview to a classmate using some verbs from the copies super guau .

We could no finish the activity Because the nurse from Sena had an activity with the students, so next class we will have the inverview+ questions related to the 16 verbs related to cooking Example: do you grate the cheese? Do you peel the tomato?

Just one group did the activity , the problem is that they did the sentences too complex.

30 th October 2024

We worked on their dialogues+ the students did their 3 questions with their answers + Example : do you peel the potato? Yes, i do / do you break the eggs? Yes, i do. + they played the game " the Ladder" + they asked 4 questions to a different groups and their answers were according to the context " be logic" + they started with the copies + wordsearch activity.
