🔧 **My First Experience with Machines**

Objetivo: Reflexionar sobre experiencias pasadas con maquinaria pasado.	Instrucciones
Piensa en una experiencia pasada	• Recuerda la primera vez que trabajaste con una máquina o que creaste algún componente mecánico. • Si no tienes experiencia directa, imagina cómo pudo haber sido.
Responde estas preguntas:	- Where were you? - What machine were you working with? - What happened? - What did you do? Explain the procedure - What did you expect before using the machine? - What was the most difficult part? - Did you make any mistakes? What were they? - How did you fix your mistakes? - What did you learn from this experience? - How did you feel at the end?
Escribe un breve párrafo resumiendo lo que aprendiste y cómo te sentiste.	En un párrafo elaborado relata la experiencia completa.
