Who we are ?

CODELAC was established 31 years ago and is located in Montería, the capital of the Córdoba department in the Colombian Caribbean region. Our milk comes from cows that graze on fresh green pastures in the open air, ensuring the origin and quality of our raw materials and final products.

REDEFINING THE COLOMBIAN COUNTRYSIDE

ABOUT US

We are a team that emerged in the midst of the pandemic. With the purpose of generating a change, we decided to venture into the world of food awareness, since the beginning of 2020 we started experimenting with the flavors of our region and for this reason the Sufruta initiative originated. We are currently producers of tropical fruits and nuts, more specifically Cashew.
We are located in Montería - Córdoba / Colombia. Working hand in hand with associations of local farmers, in order to highlight the flavors and virtues of our nuts.

Our cashew butter is the achievement of strategic alliances. Our goal has been to support fair trade by working hand in hand with growers in our region, and the rigorous processing of our products is done by one of the fundamental pillars along our value chain: mothers heads of households who were victims of displacement and violence.

Quality matters to us.That's why we have partnered with ethical and responsible farmers and producers, which allows us to obtain the best possible cashew required to maintain our commitment to consistency and excellence of the cream. And, as always, when you buy SUFRUTA cashew butter, you can be sure that each lot is free of added chemicals or preservatives, so you can enjoy our delicious flavors without any guilt!

Diverse Colombia

Yams, a treasure of our land, are more than just a crop: they are the livelihood of rural communities that, with effort and tradition, preserve the biodiversity of the Colombian Caribbean. Thanks to the commitment of our farmers and the support of government entities, we are moving towards sustainable practices that protect the soil, strengthen the local economy and guarantee a prosperous future for all.

The biodiversity of the Colombian Caribbean flourishes with the sustainable cultivation of yams, strengthening our rural communities and counting on the support of entities that promote their growth. Together, we sow the future!

Surti Delicias®

Diverse Colombia

In the Colombian Caribbean, platan cultivation is more than a tradition; It is the livelihood of hundreds of farming communities that, with effort and dedication, work the land to offer a quality product with a positive impact on the environment. Thanks to sustainable practices, these crops not only protect the biodiversity of the region, but also guarantee the conservation of soils and the responsible use of water.

The support of the National Government has been key in this process, providing technical assistance, access to financing and promoting initiatives that promote agroecology and fair marketing. With these actions, food security is strengthened, new economic opportunities are generated and a more prosperous and sustainable countryside is built.
