Es esencial que el seguimiento al estado vacunal incluya el documento(carnet de vacunas) por ambas caras, que evidencie los datos de identificación de la niña o el niño. Así mismo se debe promover la asistencia oportuna a las campañas masivas de vacunación que establece la Secretaría de Salud Distrital. Nota: La vacuna influenza estacional se podrá aplicar antes de los 24 meses dos dosis con intervalos de 4 semanas posterior a los 6 meses de edad.

Es esencial que el seguimiento al estado vacunal incluya el documento(carnet de vacunas) por ambas caras, que evidencie los datos de identificación de la niña o el niño. Así mismo se debe promover la asistencia oportuna a las campañas masivas de vacunación que establece la Secretaría de Salud Distrital. Nota: La vacuna influenza estacional se puede aplicar antes de los 24 meses dos dosis con intervalos de 4 semanas posterior a los 6 meses de edad
