Rev. November 2024

- Elsevier B.V. is the “sole source” of Emtree, a life science thesaurus. Subscriptions to Emtree may be solicited only by Elsevier regional offices and authorized agents. Subscription agreements for Emtree are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of Elsevier Fingerprint Engine, which is a back-end software system based on Natural Language Processing techniques to extract information from unstructured text. Subscriptions to Elsevier Fingerprint Engine may be solicited only by Elsevier regional offices and authorized agents. Subscription agreements for Elsevier Fingerprint Engine are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of Hivebench™, Mendeley Data Repository, Mendeley Data Manager, Mendeley Data Notebook, Mendeley Data – Admin, Mendeley Data – Search, Mendeley Data – Monitor, RDM - Setup, migration, indexing, RDM - Consulting and training, RDM - Additional storage, and Hivebench standalone Electronic Lab Notebook. Subscriptions to Hivebench, Mendeley Data Repository, Mendeley Data Manager, Mendeley Data Notebook, Mendeley Data – Admin, Mendeley Data – Search, Mendeley Data – Monitor, RDM - Setup, migration, indexing, RDM - Consulting and training, RDM - Additional storage, and Hivebench standalone Electronic Lab Notebook may be solicited only by Elsevier regional offices and authorized agents. Subscription agreements for Hivebench, Mendeley Data Repository, Mendeley Data Manager, Mendeley Data Notebook, Mendeley Data – Admin, Mendeley Data – Search, Mendeley Data – Monitor, RDM - Setup, migration, indexing, RDM - Consulting and training, RDM - Additional storage, and Hivebench standalone Electronic Lab Notebook are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of the Knovel® cloud-based application, which integrates technical information with analytical tools and unique search functionality and proprietary components supported by Elsevier’s advanced proprietary technology. Elsevier’s Knovel application adds value to 3rd party content (references, manuals, reports, and books) by creating fully-searchable and interactive electronic files. The Knovel application contains unique compilations of materials properties data. The data is organized into tables for viewing and searching and select rows can be exported for use off-line. Knovel also contains 650 equations including descriptions and citations that can be opened in the exclusively licensed Equation Solver, the browser-based math software that allows users to calculate (incorporating 1000+ engineering units) and export completed math worksheets for off-line use. Subscriptions to Knovel may be solicited only by Elsevier regional offices and authorized agents. Subscription agreements for Knovel are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of Knovel® SDK for Microsoft® Sharepoint®, a toolkit that allows enterprises using SharePoint® as a Knowledge Management System to seamlessly integrate with Knovel’s engineering resources so that when users research topics and query internal references on SharePoint, they also find search results highlighting resources available on Knovel. Subscriptions to Knovel SDK for Microsoft Sharepoint may be solicited only by Elsevier regional offices and authorized

agents. Subscription agreements for Knovel SDK for Microsoft Sharepoint are entered into exclusively by Elsevier B.V.

- Elsevier B.V. is the “sole source” of Mendeley Institutional Edition (“MIE”), which is a reference manager and academic social network with unique search functionality and proprietary components supported by Elsevier’s advanced proprietary technology that can help a subscriber’s users organize documents, collaborate with others online, and discover research. Subscriptions to MIE may be solicited only by Elsevier regional offices and authorized agents. Subscription agreements for MIE are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of Elsevier NNN. Elsevier NNN is a database that contains NANDA, NOC and NIC taxonomies in Spanish which get integrated into the Care Plans software of hospitals and government institutions. Agreements for Elsevier NNN are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of NNNConsult. NNNConsult is a web-based service that allows users to explore NANDA, NOC and NIC content (only Spanish translation) using a web-browser. Additionally NNNConsult allows users to build patient care plans based on taxonomies content. Agreements for NNNConsult are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of the Pure product and all Pure modules and services. Pure is an electronic research information management system with flexible, unique search functionality and proprietary components, which aggregates an institution’s research and faculty information and provides customized reports for research administrators, researchers and librarians, facilitating the planning, evaluation and reporting of research activities. Subscriptions to Pure may be solicited only by Elsevier B.V. and its authorized agents. Subscription agreements for Pure are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of Reaxys Flat File Subscription, Reaxys Structure Flat File, and Reaxys Medicinal Chemistry Flat File which is the onsite delivery of a customized dataset (and updates thereof, if agreed). Agreements for Reaxys Flat File Subscription, Reaxys Structure Flat File, and Reaxys Medicinal Chemistry Flat File are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of Data Services, which is Elsevier’s provision of unbiased analyses on research performance provided to clients by Elsevier in a written report. Data Services combines high quality data sources with technical and research metrics expertise accrued over Elsevier’s 130 years in academic publishing. The indicators presented in Data Services analytical reports are based on publication and citation data, full text article downloads, and macroeconomic data. These are derived from high quality sources such as Scopus®, ScienceDirect®, LexisNexis’ Total Patent®, a client’s own institution’s data, and external sources. The Data Services team adds value through careful analysis and the creation of reports that present clients with

data-driven key findings. The resulting insights answer pressing research management questions and inform decisions related to funding allocations, research policies and strategies. Agreements for Data Services are entered into exclusively by Elsevier B.V.

- Elsevier B.V. is the “sole source” of Data Monitor Data and Scopus Custom Data, which are the onsite delivery of a customized dataset (and updates thereof, if agreed) consisting of data from Elsevier’s database. Agreements for Data Monitor Data and Scopus Custom Data are entered into exclusively by Elsevier B.V.
- Elsevier B.V. is the “sole source” of SSRN, which is an open-access online preprint database that provides the opportunity for posting one’s early research, papers and abstracts and to collaborate on theories and discoveries and for browsing the data library of research, papers and abstracts. Agreements for SSRN are entered into exclusively by Elsevier B.V.

Sincerely,

ELSEVIER B.V.

Empowering Knowledge

POWER OF ATTORNEY

ELSEVIER B.V., a private limited liability company ("*besloten vennootschap met beperkte aansprakelijkheid*") under Dutch law, having its official seat in Amsterdam, its office address at Radarweg 29 and registered in the Dutch Commercial Register under number 33158992 (hereinafter the "Grantor"), duly represented by **Thong-Li Lim**, identified with Passport No. K2301816E, in his capacity as **Director** of the Grantor,

hereby grant a limited power of attorney to :

Jorn Felten, Global business development & partnerships for Clinical Solutions

Caesar Westland, Director Account Support EMEA

Oonagh Creane, Director Tender Management

Valentina Piazzera, Head of Center of Excellence

to, on behalf of the Grantor:

sign any procurement documents and sign electronic subscription agreements with customers for electronic information and publication services up to and including the amount of € 9,000,000 (nine million Euros, or the equivalent amount in foreign currency). This amount is the total amount to be invoiced to the customer during the term of an electronic subscription agreement.

This power of attorney does not form part of the rights arising from the employment conditions of the above-mentioned delegates and may be unilaterally withdrawn or changed by the management of Elsevier B.V.

The Grantor shall hold harmless and fully indemnify the abovementioned delegates for any losses, damages and liabilities that they may incur in connection with the acts performed or omitted by them within the scope of the present power of attorney. This power of attorney shall be governed by Dutch law.

Signed in Amsterdam on 2025 02 26

ELSEVIER B.V.

Thong-Li Lim

Vice President, Account Support & Tender Management
