	Owing to a recent review of our export licence, the following questions have been incorporated to establish if an export licence is required or not. Could you please advise: 1) Is your organisation the ultimate end user for these products? Yes/No If not, please confirm who is the ultimate end user, full organisation name and address required 2) Are your items intended for End-users who currently have trade sanctions and/or trade embargoes imposed on them? Yes/No 3) What is the specific purpose for which the item/data/software will be used by the ultimate end-user (including, if applicable, where the goods are going to be incorporated)? Please do not send physical artefacts to NPL without confirmation on any export control requirements.
