

INFORME FINANCIERO CONSOLIDADO PRESTADORES DE SERVICIO 2025

SECRETARÍA DEL DEPORTE Y LA RECREACIÓN

21 DE NOVIEMBRE DE 2025

STEVENSON VALDIVIESO CASTAÑEDA

ÍNDICE

1. Introducción
2. Metodología
3. Desarrollo
4. Conclusiones
5. Referencias y Anexos

1. INTRODUCCIÓN

Este informe presenta un análisis consolidado de los prestadores de servicios vinculados entre enero y octubre de 2025 en la Secretaría del Deporte y la Recreación del Distrito Especial de Santiago de Cali, con el objetivo de proporcionar insumos clave para el cierre fiscal y financiero de la vigencia. Se detallan los datos por tabla de honorarios, subsecretaría y valor presupuestal, permitiendo una visión integral del comportamiento contractual de la entidad durante el periodo analizado.

En el marco del proceso de cierre fiscal y financiero de la vigencia 2025, se hace necesario consolidar la información relacionada con los prestadores de servicios vinculados a la entidad. Este informe tiene como propósito facilitar la toma de decisiones presupuestales, identificar tendencias en la contratación y contribuir a la planeación financiera del próximo periodo (2026).

2. METODOLOGÍA

Para la realización del presente informe, se hizo con base en el reporte ZMM007 a 31 de octubre de 2025 extraído de SAP, el cual se divide en dos partes. Con la primera parte se logró cuantificar el total de prestadores de servicios contratados con la Secretaría del Deporte y la Recreación, teniendo en cuenta sus honorarios o rango salarial de acuerdo al perfil por el cual el prestador de servicio fue contratado, todo esto con base en la CIRCULAR No 4135.010.13.1.971.000005 del 03 de enero de 2025 de la tabla de honorarios para la presente vigencia.

3. DESARROLLO

Prestadores de servicios vinculados entre enero y octubre 2025

Para poder identificar la cantidad de PS que se contrataron desde enero a octubre de 2025, se aplicaron al reporte ZMM007 una organización de la información suministrada en el reporte y se aplicaron unas tablas dinámicas que permitieron visualizar la cantidad de PS contratados por mes con los respectivos rangos salariales, como se muestra a continuación:

Prestadores de servicios por tabla de honorarios suscritos con la Secretaría del Deporte y la Recreación en el mes de enero:

Elaboración propia

Lo anterior, nos quiere decir que durante el periodo comprendido entre enero y octubre de 2025, se evidenció una dinámica fluctuante en la vinculación de prestadores de servicios en la Secretaría del Deporte y la Recreación, con variaciones significativas en el número de contrataciones mensuales, así como en la distribución por niveles de prestación y tablas de honorarios. A continuación, se presenta un análisis detallado por mes, destacando los principales hallazgos y tendencias.

El año inició con un total de 383 prestadores vinculados. El nivel asistencial representó la mayor proporción, con 144 contrataciones distribuidas principalmente en las tablas de \$2.184.000 (92 prestadores) y \$2.685.000 (52). El nivel profesional también tuvo una participación destacada, con 138 prestadores, siendo la tabla de \$5.445.000 la más utilizada (73). El nivel profesional especializado sumó 46 contrataciones, mientras que el nivel técnico cerró con 55 prestadores, todos en la tabla de \$3.414.000. Este mes reflejó una estructura operativa sólida, con énfasis en perfiles asistenciales y profesionales.

Febrero marcó el punto más alto del periodo, con 765 prestadores vinculados. El crecimiento fue impulsado principalmente por el nivel asistencial, que alcanzó 581 contrataciones, destacándose la tabla de \$2.184.000 con 520 prestadores. El nivel profesional mantuvo una presencia significativa con 128 contrataciones, mientras que el profesional especializado sumó 17, y el técnico 47. Este comportamiento sugiere una expansión operativa considerable, posiblemente asociada al inicio de nuevos proyectos o programas institucionales de la Secretaría.

En contraste con febrero, marzo presentó una contracción más moderada en la vinculación, con solo 41 prestadores. El nivel asistencial se redujo a 23 contrataciones, y el profesional a 12. El nivel profesional especializado apenas registró una vinculación, y el técnico sumó 5.

Abril mantuvo el mismo volumen de contrataciones que marzo (41 prestadores), aunque con una distribución ligeramente distinta. El nivel asistencial sumó 13 contrataciones, el profesional 14, el profesional especializado 3, y el técnico 11.

Mayo representó un aumento en el número de contratos significativo, con 693 prestadores vinculados. El nivel asistencial volvió a liderar con 324 contrataciones, destacando la tabla de \$2.184.000 con 229 prestadores. El nivel profesional alcanzó 229 contrataciones, mientras que el profesional especializado sumó 43 y el técnico 97. Este repunte podría estar vinculado a la ejecución de proyectos del segundo trimestre o a la renovación de contratos estratégicos.

En junio se observó una nueva contracción, con 269 prestadores. El nivel asistencial sumó 187 contrataciones, el profesional 59, el profesional especializado 5, y el técnico 18. Aunque menor que mayo, este volumen refleja una continuidad operativa moderada, con predominancia del nivel asistencial.

Julio mantuvo una tendencia similar a junio, con 265 prestadores. El nivel asistencial registró 178 contrataciones, el profesional 46, el profesional especializado 13, y el técnico 28.

Agosto volvió a mostrar un repunte importante, con 711 prestadores. El nivel asistencial alcanzó 363 contrataciones, el profesional 205, el profesional especializado 38, y el técnico 105.

En septiembre se registraron 417 prestadores, una disminución respecto a agosto. El nivel asistencial sumó 287 contrataciones, el profesional 71, el profesional especializado 29, y el técnico 30. Aunque menor en volumen, este mes mantuvo una estructura similar, con predominancia del nivel asistencial y una participación estable de los niveles profesional y especializado.

Para finalizar, en octubre cerró el periodo con 730 prestadores, consolidándose como el segundo mes con mayor volumen de contrataciones. El nivel asistencial lideró con 366 vinculaciones, seguido por el profesional con 222, el profesional especializado con 40, y el técnico con 102.

Prestadores de Servicios discriminados por Subsecretaría y valor presupuestal entre enero a octubre de 2025.

Se realizó una relación de todos los PS contratados entre el periodo en mención, identificando a que Subsecretaría fueron vinculados, número de contrato, y valor presupuestal por cada uno, y este fue el resultado:

TOTAL					\$ 4.578.482.500

De lo anterior se puede inferir que la Subsecretaría de Fomento tiene el volumen de contratación más alto: 3,083 contratos, lo que representa el 72.4% del total.

Que su ejecución presupuestal en cuanto a contratos de prestación de servicios es de \$21.182 millones, equivalente al 66.5% del gasto total.

Con la Subsecretaría de Infraestructura, tenemos que tiene una contratación de 606 contratos (14.2% del total). Es la segunda subsecretaría con mayor gasto en cuanto a la contratación de servicios personales y profesionales: \$6.408 millones (20.1% del total).

Y por último tenemos a UAG cuya contratación es más baja en comparación con las otras dos: 569 contratos (13.4% del total) equivalente a una ejecución presupuestal: \$4.578 millones (13.4% del total).

4. CONCLUSIONES

En cuanto al primer informe de PS contratados por meses clasificados por tabla de honorarios, podemos concluir que:

- La vinculación de prestadores de servicios presentó un comportamiento cíclico, con picos en febrero, mayo, agosto y octubre, coincidiendo con momentos clave del calendario fiscal y operativo.
- El nivel asistencial representó en promedio cerca del 50% del total mensual, lo que evidencia su papel central en la operación institucional.
- El nivel profesional mostró una participación constante y creciente en los meses de mayor actividad, mientras que el profesional especializado, aunque minoritario.
- El nivel técnico mantuvo una participación estable, con mayor protagonismo en los meses de mayor ejecución presupuestal.

Las conclusiones sobre las relaciones de los ps contratados teniendo en cuenta la subsecretaría y valor presupuestal, se concluye que:

Fomento tiene el mayor volumen y ejecución, lo que refleja su rol operativo y territorial. Infraestructura concentra recursos en menos contratos, lo que puede implicar mayor complejidad técnica o duración. Y UAG mantiene una operación más equilibrada, con un gasto proporcional al número de contratos. Su perfil sugiere soporte estructural a las otras dos áreas.
