Vice Chair, IPHE; Hydrogen
Advisor to IEA & Gasunie

WORLD HYDROGEN 2025 SUMMIT & EXHIBITION IN THE NEWS

Port of Rotterdam Authority and EDGE Navigation cooperate on liquid hydrogen

During the World Hydrogen Summit in Rotterdam, the Port of Rotterdam Authority and EDGE Navigation signed a Letter of Intent (LoI) to cooperate on the development of a future-proof liquid hydrogen infrastructure for the maritime sector.

'Significantly oversubscribed' \$21bn Japanese clean hydrogen tender will be awarded on rolling basis: ministry

Japan's Contracts for Difference (CfD) subsidy programme for clean hydrogen has been oversubscribed, with applications "significantly exceeding" the ¥3trn (\$21bn) budget, a Japanese government official said today (Tuesday).

Germany and UK to explore feasibility of hydrogen pipeline connection

The German transmission system operator GASCADE Gastransport GmbH (GASCADE) and Great Britain's Gas National Transmission System (NTS) operator National Gas have signed a Memorandum of Understanding (MoU) to explore the feasibility to establish a hydrogen corridor between the UK and Germany in the North Sea through an offshore pipeline interconnection – a significant step towards a secure, resilient, and sustainable European energy system.

Tech risk no deal-breaker for hydrogen finance, says ING – offtake is key

Electrolyser technology choices have 'not that much' impact on financing success for hydrogen projects, ING's Henry Rushton said at the World Hydrogen Summit.

The Director Energy Sector Coverage told the event in Rotterdam that due to the maturity of alkaline technology and early technical analysis of various PEM systems, tech decisions had little influence on financing.

TRUSTED BY INDUSTRY LEADERS: DISCOVER THE TRUE VALUE OF PARTICIPATION

Thanks for your fantastic and tireless support! It was my first year at VHS and I am still very much impressed by the size and quality of this event. I was happy to be able to actively contribute on the big stage as well as in smaller fora.

Dr. Christian Storost,
Head of Division VB2 International hydrogen ramp up,
Federal Ministry for Economic Affairs and Energy, Germany

Participating in the World Hydrogen Summit 2025 was a rewarding experience. The event brought together an impressive network of stakeholders, fostering constructive dialogue and future collaboration. It was a pleasure to share SCZONE's vision and strategy for green energy and industrial development on such a prominent stage.

Ahmed Saad,
CEO, SCZONE

The launch of H2Brazil at the World Hydrogen Summit marks a defining moment for the global hydrogen economy and for Brazil's role in the energy transition. We are honored to take this step on the global stage, alongside partners and institutions that share our vision of a clean, inclusive, and forward-looking energy future.

Nathalia Ervedosa,
COO of H2Brazil,

The decision makers have been here which makes it an efficient really really valuable place to do business.

Catherine Hill,
Trade and Investment Commissioner, Netherlands
Nordics and Baltics Austrade

Excellent organization of the World Hydrogen Summit & Exhibition. Please extend my congratulations to your entire team for the outstanding work, the kindness with which we were treated, and the high level of professionalism shown throughout the event.
