Gets Water

German Environmental Technologies & Solutions for Water

To whom it may concern **Essen, 20.02.2024**

Gets-Water GmbH, designer and assembler of the RO179SEA desalination unit installed on the island of San Andres, Colombia, expresses its interest to collaborate with Mr. Mauricio Hincapié, with whom we have already worked in the past for the development of corrective activities, providing technical support and supply according to your requirements in order to have reliability in the operation of the system.
