Within the framework of this High-Level Forum, the Office of the Vice President of the Republic, in coordination with the Ministry of Commerce, Industry, and Tourism, will hold the “Bi-regional Economic Forum” as a strategic platform for dialogue, coordination, and economic cooperation between Latin America and the Caribbean, and the African continent, with the participation of high-level representatives from governments, regional development banks, and regional economic communities, among others.

This event will become a milestone in strengthening high-level bi-regional political dialogue between Latin America, the Caribbean, and the African continent. It will be an exceptional opportunity to renew the ties that unite the two continents and move toward a shared future based on equity, sustainability, and historical justice.

This space is also strategically important for the projection of a solid alliance between two regions of the Global South, coordinated around priority issues such as the defense of multilateralism, the promotion of social and racial justice, energy and environmental transition, the promotion of education and knowledge as drivers of transformation, scientific and technological development and the creation of new connections –air, sea, and trade– that help strengthen integration, among other issues of common interest.

Within the framework of the High-Level Forum of the Community of Latin American and Caribbean States (CELAC) and Africa, the Office of the Vice President of the Republic of Colombia, in coordination with our Ministry of Commerce, Industry, and Tourism, will hold the “Bi-regional Economic Forum” as a strategic platform for dialogue, coordination, and economic cooperation between Latin America and the Caribbean and the African continent. INSTITUTIONAL CONCEPT NOTE

The Road to Reparations

1. Context and justification

The Historical Reparations Pillar of the CELAC–Africa High-Level Agenda is a strategic framework for political, ethical, and social reconciliation between Africa, Latin America, and the Caribbean. Both regions share a history marked by colonisation, the transatlantic slave trade, indigenous genocide, structural racism and multiple forms of dispossession, whose differentiated impacts on African, Afro-descendant and indigenous peoples continue to be felt today in the form of deep social, economic, cultural, spiritual and symbolic divides.

Within this framework, **Historical Reparations Day** is conceived as a high-level political, academic, spiritual, and social space aimed at deepening the global debate on historical reparations and their contemporary structural manifestations. This space is based on the recognition that historical reparation is not limited to an interpretation of the past, but rather constitutes a necessary condition for the transformation of power relations, the overcoming of racism and the construction of more just, egalitarian and dignified societies.

The event is taking place within the framework of the **Africa Strategy**, led by the Vice-President of the Republic of Colombia, Francia Elena Márquez Mina, and the **CELAC–Africa High-Level Forum**, with Colombia holding the Pro Tempore Presidency of CELAC (Community of Latin American and Caribbean States). Based on this political commitment, Colombia proposes to position historical reparation as a transformative framework for action for the present and future of bi-regional relations, reaffirming its regional and international leadership in promoting a Historical Reparation Agenda as the central pillar of racial, ethnic, social, economic, cultural and spiritual justice.

March 19th will thus serve as a central space for political, spiritual and cultural dialogue, recognising that comprehensive reparation must articulate material, symbolic and spiritual dimensions, aimed at the full restoration of human dignity. This space also seeks to advance the collective construction of a global reparations agenda that collects, articulates and harmonises the actions, experiences and proposals of the Caribbean, CELAC and Africa, based on a common purpose of historical justice, recognition and structural transformation.

2. General objective

To promote high-level bi-regional dialogue between Africa, Latin America and the Caribbean in order to advance the development of a shared agenda for historical reparation, integrating political, social, cultural and spiritual perspectives, with an emphasis on dignifying Afro-descendant, African and indigenous peoples.

3. Methodological approach

The methodological proposal is based on a political perspective of Afro-reparation, memory, and historical justice, understood as concepts under construction by Afro-descendant peoples, the Caribbean, and indigenous peoples of Colombia and the world. This approach seeks to contribute to the recovery of collective memory, the recognition of ancestry, and the

appreciation of the meanings and knowledge of diverse traditions as fundamental elements for the preservation of the history and dignity of ethnic peoples.

From this perspective, the methodology articulates political, legal, cultural, and spiritual dimensions, prioritising horizontal dialogue, the collective production of knowledge, and the recognition of non-hegemonic systems of justice and reparation.

This approach seeks to position women as central actors in the construction of the international political agenda for justice and reparation within the framework of the CELAC–Africa High-Level Agenda.

6. Expected outcomes

- Substantive contributions to the Global Agenda for Historical Reparations.
- Strengthening Colombia's leadership in promoting historical justice and comprehensive historical reparation at the regional and international levels.

NOTE CONCEPTUELLE INSTITUTIONNELLE

Sur la voie des réparations

1. Contexte et justification

Le pilier « Réparation historique » de l'Agenda de haut niveau CELAC-Afrique constitue un axe stratégique pour le rapprochement politique, éthique et social entre l'Afrique, l'Amérique latine et les Caraïbes. Les deux régions partagent une histoire marquée par la colonisation, la traite transatlantique des esclaves, le génocide des peuples autochtones, le racisme structurel et de multiples formes de spoliation, dont les impacts différenciés sur les peuples africains, afro-descendants et autochtones continuent de se reproduire, aujourd'hui encore, sous la forme de profondes fractures sociales, économiques, culturelles, spirituelles et symboliques.

Dans ce contexte, la **Journée des réparations historiques** est conçue comme un espace politique, académique, spirituel et social de haut niveau, visant à approfondir le débat mondial sur les réparations historiques et leurs manifestations structurelles contemporaines. Cet espace part du principe que la réparation historique ne se limite pas à une lecture du passé, mais constitue une condition nécessaire à la transformation des relations de pouvoir, à la lutte contre le racisme et à la construction de sociétés plus justes, plus égalitaires et plus dignes.

Cet événement s'inscrit dans le cadre de la **Stratégie Afrique**, dirigée par la vice-présidente de la République de Colombie, Francia Elena Márquez Mina, et du **Forum de haut niveau CELAC-Afrique**, avec la Colombie assurant la présidence pro-tempore de la CELAC (Communauté des États d'Amérique Latine et des Caraïbes). À partir de cet engagement politique, la Colombie propose de placer la réparation historique comme cadre d'action transformateur pour le présent et l'avenir des relations bi-régionales, réaffirmant ainsi son leadership régional et international dans la promotion d'un programme de réparation historique comme axe central de la justice raciale, ethnique, sociale, économique, culturelle et spirituelle.

La journée du 19 mars s'impose ainsi comme un espace central pour le dialogue politique, spirituel et culturel, reconnaissant que la réparation intégrale doit articuler des dimensions matérielles, symboliques et spirituelles, orientées vers la restauration pleine et entière de la dignité humaine. De même, cet espace vise à faire progresser la construction collective d'un programme mondial de réparations qui rassemble, articule et harmonise les actions, les expériences et les propositions des Caraïbes, de la CELAC et de l'Afrique, dans le but commun de justice historique, de reconnaissance et de transformation structurelle.

2. Objectif général

Promouvoir un dialogue birégional de haut niveau entre l'Afrique, l'Amérique latine et les Caraïbes afin de faire progresser l'élaboration d'un programme commun d'action de réparation historique, intégrant des perspectives politiques, sociales, culturelles et spirituelles, en mettant l'accent sur la dignité des peuples d'ascendance africaine, africains et autochtones.

3. Approche méthodologique

La proposition méthodologique repose sur une perspective politique de la réparation afro-descendante, de la mémoire et de la justice historique, comprises comme des concepts en construction par les peuples afro-descendants, les Caraïbes et les peuples autochtones de Colombie et du monde entier. Cette approche vise à contribuer à la sauvegarde de la mémoire collective, à la reconnaissance de l'ancestralité et à la valorisation des significations et des savoirs de diverses traditions en tant qu'éléments fondamentaux pour la préservation de l'histoire et de la dignité des peuples ethniques.

Dans cette optique, la méthodologie articule les dimensions politiques, juridiques, culturelles et spirituelles, en privilégiant le dialogue horizontal, la production collective de connaissances et la reconnaissance de systèmes de justice et de réparation non hégémoniques.

Approche conceptuelle
Le forum s'appuie sur une conception globale de la justice historique, qui articule les dimensions spirituelles, culturelles, politiques et structurelles. Dans une approche décoloniale et interculturelle, les spiritualités afro et autochtones sont reconnues comme des systèmes de connaissance et d'éthique de vie, historiquement marginalisés, mais fondamentaux pour la guérison collective et la restauration de la dignité.

5. Approche transversale : les femmes et le genre dans la réparation historique

Le programme intègre de manière transversale la dimension femmes et genre, en considérant la réparation historique comme une pratique politique du Sud global visant à renforcer les réseaux, les processus et les liens qui garantissent une vie digne aux femmes, à leurs familles et à leurs communautés. Cette approche vise à positionner les femmes comme des actrices centrales dans la construction du programme politique international de justice et de réparation dans le cadre du programme de haut niveau CELAC-Afrique.

6. Résultats attendus

- Contributions substantielles à l'Agenda mondial des réparations historiques.
- Renforcement du leadership de la Colombie dans la promotion de la justice historique et de la réparation historique intégrale au niveau régional et international.

NOTA CONCEPTO

CAMINO A LAS REPARACIONES HISTÓRICAS: En el marco de la Agenda de Alto Nivel CELAC–África

1. Contexto y justificación

El Pilar de Reparaciones Históricas de la Agenda de Alto Nivel CELAC–África se constituye como un eje estratégico para el fortalecimiento del diálogo político birregional y para la proyección internacional de la CELAC como actor colectivo del Sur Global comprometido con la justicia histórica, la igualdad racial y la dignificación de los pueblos.

África, América Latina y el Caribe comparten una historia común marcada por la colonización, la trata trasatlántica de personas esclavizadas, el genocidio de los pueblos indígenas, el racismo estructural y múltiples formas de despojo territorial, cultural, económico y simbólico. Estos procesos históricos han generado impactos estructurales que persisten hasta la actualidad, expresándose en profundas desigualdades sociales, económicas, políticas, culturales y espirituales que afectan de manera diferenciada a los pueblos africanos, afrodescendientes e indígenas de los Estados miembros de la CELAC.

En este marco, el Camino a las Reparaciones Históricas se concibe como un espacio político, académico, espiritual y social de alto nivel, orientado a profundizar el debate internacional sobre las reparaciones históricas como un asunto vigente del presente y del futuro, y no únicamente como una revisión del pasado. La reparación histórica es entendida como una condición indispensable para la transformación de las relaciones de poder, la superación del racismo estructural y la consolidación de sociedades más justas, inclusivas y democráticas.

Este espacio se desarrolla en el marco del Foro de Alto Nivel CELAC–África, con Colombia ejerciendo la Presidencia Pro Témpore de la CELAC, y como parte de la Estrategia África impulsada por la Vicepresidencia de la República de Colombia. Desde esta apuesta política, la CELAC reafirma su compromiso con el posicionamiento de las reparaciones históricas como un eje central de la agenda birregional, contribuyendo a la construcción de una arquitectura política internacional orientada a la justicia racial, étnica, social, económica, cultural y espiritual.

El 19 de marzo se configura, así, como un espacio estratégico de diálogo político, cultural y espiritual, que reconoce la necesidad de una reparación integral, entendida como un proceso que articula dimensiones materiales, simbólicas, jurídicas y espirituales, orientadas a la restauración plena de la dignidad humana y colectiva. Asimismo, este encuentro busca avanzar en la construcción de una agenda global de reparaciones, que armonice las experiencias, propuestas y acciones de los Estados miembros de la CELAC, el Caribe y los países africanos, en función de un propósito común de justicia histórica, reconocimiento y transformación estructural.

El día 20 de marzo, se desarrollará una jornada estratégica orientada a profundizar las articulaciones de la agenda global de reparaciones iniciadas el día 19 de marzo. Así, a través de diálogos en torno a las dimensiones económicas, culturales y académicas de cara a las reparaciones históricas, se construirá una hoja de ruta birregional que permita dinamizar la agenda global de reparaciones históricas África, América Latina y el Caribe. Estas serán propuestas concretas que, en marco del enfoque de justicia étnico- racial,

definirá acciones, instrumentos, alianzas y mecanismos de seguimiento que fortalezcan el posicionamiento de la agenda CELAC–África en escenarios multilaterales y regionales.

Objetivo general

Promover un diálogo birregional de alto nivel entre África, América Latina y el Caribe, en el marco de la CELAC, que permita avanzar en la construcción de una agenda compartida de acciones de reparación histórica, integrando perspectivas políticas, sociales, culturales, jurídicas y espirituales, con énfasis en la dignificación de los pueblos africanos, afrodescendientes e indígenas de los Estados miembros.

Objetivos específicos:

Día 19 de marzo: Reivindicar y fortalecer las alianzas políticas birregionales entre África y los Estados miembros de la CELAC para la configuración de un campo de acción internacional en materia de reparaciones históricas, identificando retos, desafíos y oportunidades para la construcción de una agenda política común desde el Sur Global.

Día 20 de marzo: Promover diálogos en torno a las dimensiones económicas, culturales y académicas que permitan definir plan de trabajo de corto, mediano y largo plazo, orientado a materializar la articulación de las agendas de reparaciones históricas en el sur global.

2. Propuesta metodológica

La propuesta metodológica se fundamenta en un enfoque político situado, coherente con los principios de la CELAC de concertación política, cooperación Sur–Sur, integración regional y respeto a la diversidad cultural. Aborda de manera articulada los ejes de reparación, memoria y justicia, reconociendo las reparaciones históricas como un concepto emergente y en construcción desde las experiencias de los pueblos afrodescendientes del Caribe, África, América Latina y los pueblos indígenas de la región.

La metodología privilegia el rescate de la memoria colectiva, el reconocimiento de la ancestralidad y la valoración de las tradiciones culturales, espirituales y jurídicas como fundamentos para la preservación de la historia y los saberes de los pueblos étnicos. Durante el día 19 se llevaran a cabo foros y paneles de diálogo político, jurídico y espiritual, orientados a la producción colectiva de sentidos, consensos y lineamientos estratégicos para una agenda CELAC–África de reparaciones históricas. En un segundo momento, durante el día 20, se desarrollarán mesas de trabajo que permitan acordar una ruta de actuación con acciones concretas de corto, mediano y largo plazo.
