```
style: sorteos más compactos y seleccionar el primero por defecto

- Tarjetas de sorteo más pequeñas: padding reducido (p-4 → px-3 py-2.5),
  icono más pequeño (w-12 h-12 → w-8 h-8), fuente sorteo reducida
  (text-xl → text-base), gap reducido
- Se eliminó el nombre de lotería redundante (solo muestra sorteo #)
- Badge carrito integrado inline en vez de absolute
- Selección por defecto: usa el primer sorteo del array (del backend)
  en vez de ordenar por fecha
