Commit 3f39891

claude committed 3 weeks ago Verified

```
fix: botón registrarse siempre habilitado con feedback de validación

Frontend:
- Botón siempre clickeable, al hacer click muestra lista de errores
  de validación si el formulario no es válido (campos faltantes,
  contraseña < 8 chars, correos no coinciden, etc.)
- Signal 'submitted' controla cuándo mostrar los errores
- Enter en confirmar contraseña también valida antes de enviar

Backend:
- Agrega validación de teléfono duplicado en registro
- Si ya existe una cuenta con el mismo teléfono, lanza error claro

https://claude.ai/code/session_01WTbEJHa9nd8kVVoKCirXH8
```
