Cervical Implants Designed to Fit the Natural Shape of the Disc Space

Anatomically Fit.

NUVASIVE® Speed of Innovation™

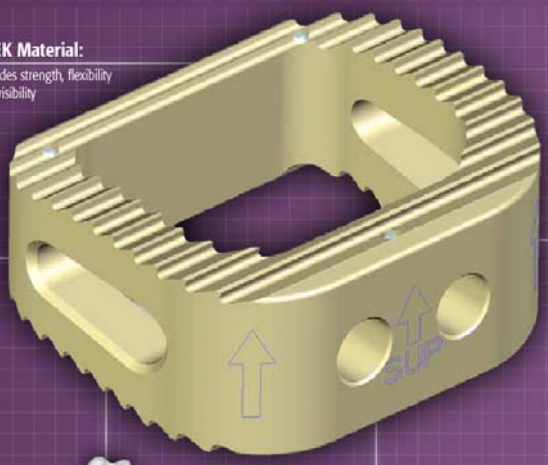

COROENT SMALL CONTOURED

Design Rationale:

Cervical implants designed to fit the natural shape of the disc space

Design Features:

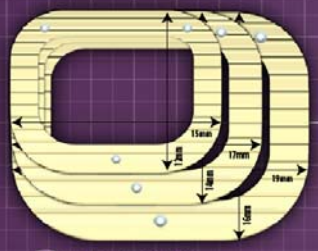

1. PEEK Material provides strength, flexibility and visibility
2. 3 large footprints (15x12mm, 17x14mm, 19x16mm) offer intra-operative options for varying patient anatomy
3. Maximized fusion aperture provides ample space for autograft
4. 7° of Lordosis for proper Sagittal re-alignment
5. Domed superior surface mimics the inferior aspect of the superior vertebral body
