3. Read the following text about Paulista Avenue. After that, answer the three questions and give three people, who are going to visit São Paulo city, descriptions and suggestions using CAN, SHOULD, OUGHT TO or HAVE TO. (6 points.)

Paulista Avenue – A touristic place in São Paulo City.

The most popular Avenue of the city has all the bests of São Paulo. On this Avenue, it's possible to find museums and Cultural Centers, find a park among skyscrapers, check news at the bookstores, enjoy the happy hour in one of the various pubs that there are on it, enjoy the night in one of the nightclubs around, watch theater performances and cinema sections and shopping everything in just one place!

Even with all these excitement, Paulista Avenue lets you enjoy the nature: The Parque Trianon offers sits, places for walking, and eventual cultural performances and even small theater plays. For those ones who prefer to visit cultural places, they should visit the Assis Modern Art Museum.

For those ones who like to shopping, the suggestions are Shopping Center 3 and Pátio Paulista. You can also go shopping on the various stores that are there on the streets.

And to recharge your energy you can go to the Bella Paulista Bakery, which is opened 24 hours a day and has an assorted menu.

São Paulo is known as the "drizzle city", but certainly, if you like crowds and busy places you should go there in the summer. It's pretty hot though.
