Hi Shahd,

Thanks! We will send you the link.
Please find attached a one-pager detailing our testbed. At the end, you will find three questions we propose to discuss during our session.

Cheers,
José Luis

Hi Jose,

Lovely to connect. The proposed time works well for me, feel free to share an invite link.

Best,
Shahd

Hi Shahd,

I'm José Luis Sánchez, part of the team working on the project.

Thank you for your help with this process. We couldn't find a suitable date for this week, but we would like to propose April 21 at 8:00 a.m. (Colombian time, GMT-5).

Regarding the areas where we would appreciate your input, I will get back to you tomorrow after meeting with the team so we can agree on how to get the best of your expertise.

Cheers,

José Luis

Hi Jose,

It is lovely to hear from you and I so pleased to hear you've made so much progress. I was off on Eid break and have now finally caught up with my inbox, so apologies for my delay.

I'd love to support with this of course. Next week Wednesday or Thursday would work well on my end.

Can you please share the areas you're looking for input on? This way I can make sure to invite the right people to the meeting.

Best,
Shahd

Hi Shahd,

Hope you're doing well and that Web Summit went great!

I wanted to share a quick update on our end: we've made significant progress on the testbed design and are about to move into implementation. Things are shaping up nicely.

As we enter this next phase, it would be really valuable — within the framework of the MOU — to have your input and advice, drawing on your and your partners' technical expertise. We believe your perspective could make a real difference in how we approach implementation.

Would you have some time in the coming weeks for a call? Happy to work around your schedule.

Looking forward to it!

Best,
Jose

viable. We truly appreciate the willingness to explore different options.

Following up on our last conversation, the Computadores para Educar team has been reviewing the budget that could realistically be allocated to this effort. Unfortunately, it would be significantly lower than the high-level / ballpark figure mentioned during the call. Given this constraint, CPE would still be very interested in moving forward with a smaller-scale testbed, ideally working with and funding directly local implementers, including our organization.

In any case, CPE places very high value on the MOU already signed and strongly believes there is a great opportunity to leverage WISE's and the consortium's accompaniment and expertise within that framework as we shape and pilot this effort.

Given this, perhaps the most appropriate next step would be to schedule a kick-off meeting in early February to align on scope, objectives, and a feasible path forward. Would that make sense on your end? If so, please let us know when it would be most convenient for you.

Thanks again, and we look forward to continuing to work together.

¡Gracias!

Jose

> I've checked options on our end, and it seems we would not be able to add a financial component to an Annex. However, we can get a financial binding agreement signed relatively quickly by upgrading the MOU. If this works for you, kindly send me a draft agreement stipulating the exact fund amount and I'll turn it around ASAP. Aurelio and I have a few trips coming up so ideally, we would need to get the draft approved by our CEO and legal team by end of this week.

Hi Shahd,

Thank you for your email. We're very excited to have formalized this first phase of collaboration!

I haven't received a calendar invite yet and don't know at what time we will be meeting. Can you please confirm?

Thanks,

Jose

Asunto: Re: MOU WISE and CPE: Testbeds

Hi Jose,

Please find attached the signed MOU with all the missing information. The footnote is a good addition to ensure clarity on annual objectives, happy to move forward with it.

Great to hear you are positive on the concept note and plan for co-funding. Happy to discuss in the new year. I'll share a meeting invite now from my other email address - which I will be using predominantly moving forward as we migrate off of our Google

workspace (where this inbox is housed).

Happy new year!

Best,
Shahd

>
> On the MOU: I'm sending it back (attached) with a few comments to be included and signed. In the version that was signed and shared by WISE, the name of the legal representative and contact details were not included, and only the English version was signed. Our legal team flagged these points, and we included comments in the document to clearly indicate them. They also added a brief footnote clarifying that, at the end of each calendar year, the parties will agree on a work plan for the following year. We've highlighted all of this directly in the document for ease of reference. Apologies for the reprocessing.
>
> We can continue moving forward with the signing of the MOU with these comments incorporated.
>
> Regarding the co-funding effort and the additional agreement: we are aligned with the direction of the concept note and have been discussing the proposed legal and operational mechanism internally with our legal team. In principle, the approach sounds feasible, but we would appreciate having a short call to ask a few clarifying questions that would help us better understand the mechanics and align on timelines.

> >
> > As discussed in person, we're happy to explore co-funding this effort and dedicating a budget to financing the onboarding of a fellow and the maintenance of a two year program along the lines described in the concept note. Mechanically, we would only be able to do this via a signed agreement with Mentu or Computadores para Educar. We'd start by having you register as a supplier on our procurement system so that we can initiate a contract, sign it and issue an invoice against which we'd be able to receive funding. I was hoping to find a less laborious method, but couldn't. Would this approach be feasible on your end?

Best,
Shahd
