"Who We Are."

We are a specialized center in physical rehabilitation and comprehensive therapy, committed to improving the quality of life of our patients.
We have a team of highly qualified professionals in physiotherapy, occupational therapy, and sports rehabilitation, who work with state-of-the-art technology and personalized approaches for each patient.

Our Values

- Commitment
- Innovation
- Empathy
- Ethics

Our Services

Physiatric Medical Evaluation:
Initial assessment conducted by a physiatrist to diagnose and plan the rehabilitation treatment.

Physical Therapy / Physiotherapy:
Treatments designed to improve mobility, reduce pain, and restore physical function.

Occupational Therapy:
Support to improve independence in daily activities such as dressing, eating, writing, etc.
Retraining in functional skills.

Neurological Rehabilitation:
Care for patients with diseases or injuries of the central or peripheral nervous system (such as stroke, cerebral palsy, multiple sclerosis, etc.).

Cardiopulmonary Therapy:
Interventions aimed at improving lung function and respiratory capacity, especially in patients with neuromuscular diseases or post-COVID conditions.

Orthopedic Rehabilitation:
Functional recovery following fractures, orthopedic surgeries, musculoskeletal injuries, and related conditions.
