Jobs Summary

1. Nomenclatura

Nombre de Trabajo: Hace referencia al identificador único que se le otorgó al trabajo al configurarlo en la herramienta Veritas Backup Exec. Este nombre sirve para distinguirlo de otros trabajos y facilita su localización y gestión.

Hora de Inicio: Hora exacta en que se inició el proceso de respaldo.

Servidor: Define el alcance de cada respaldo, indicando los servidores específicos que se incluyen en función de la configuración asociada a cada nombre de trabajo.

Duración: Tiempo transcurrido durante el proceso de respaldo.

Tamaño: Indica el tamaño de la copia de seguridad. El tamaño de la copia de seguridad es variable y está determinado por la configuración específica de cada copia, así como por el tipo de copia realizada (completa o incremental).

Archivos: Este indicador muestra los archivos respaldados en la tarea seleccionada. La información detallada de los archivos solo está disponible para copias realizadas a nivel de archivo (granulares). En el caso del ministerio, como la mayoría de las copias se hacen a nivel de máquina virtual, este campo no proporciona información específica sobre los archivos, por lo que aparece como 0.

Directorios: Hace referencia a la lista de directorios que fueron respaldados durante la operación de copia de seguridad.

Entidades: Indica la información que se envía de las copias de seguridad a una base de datos. Para el ministerio de trabajo este ítem no se tiene configurado.

Tamaño/minuto: Tamaño que de datos que se respaldan por un minuto.

Omitidos: Archivos o directorios que fueron omitidos en la copia de seguridad.

Archivos dañados: Archivos que se detectaron como dañados al momento de ejecutar la copia de seguridad

Archivos en uso: Archivos que se encontraban abiertos o en uso en el servidor al momento de tomar la copia de seguridad.

Estado: Estado en el cual culminó la copia de seguridad. Puede ser completado correctamente, completado con excepciones, fallido u omitido.

		1 Server(s)				0			0	0	0	Completed (Exceptions)	Backup

2. Reporte de copias de seguridad
