                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |      |             |        |          |                 |       |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |   |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |     |     |     |    |     |     |
