Dear Miriam,

Thank you for your patience in receiving this quote for us for sample analysis of your filter-based samples for OC/EC.

Please review the estimate below. This rate per sample is fine for any quantity of filter samples over 25, so if you end up sending fewer to us, or more, this rate will apply. I can of course re-quote you if need be.

Feel free to contact us if you have any questions.

Best regards,

Ben
