Our Prompt
Planning a Less
Robust Prompt - Planning a Lesson with Shaia
1. Design a class plan for eight grade students. They can understand most o
slow and clear language supported with written or or graphic information but struggle with speaking face to face or in small groups. They participate more when they have a very organized and clear activities. Align the class with students footprint. They have already made some flashcards based on a spider web concepts and help students use English to communicate effectively what they can change to improve their own footprint. Prioritize speaking and include a slides presentation. The evidence of learning should be. a presentation using 10 slides and real conditionals
