EXTERNAL EMAIL

Hi Mario,

Following up on this email thread, please find attached our official fiscalization opinion, which confirms that this CAS number 1346600-40-5 is not subject to control in Colombia.

Considering that we already had a previous opinion regarding the same matter (which was shared earlier in this email thread), could you please confirm whether it is necessary to have this new document translated and apostilled again, or if the attached document is sufficient to proceed with the process?

I look forward to your confirmation.

Asunto: Non Objection

Dear Mario,

The products LGCFOR1275.43, LGCAMP1275.43-29 correspond to **CAS 1346600-40-5** and the non-objection letter was sent on 9/10/2025. (Please see attached). We do not understand why are you requesting a new non-objection letter and why is it taking so long to process non objection products.

Please let us know what else you need.

Sincerely,

Hello Mario!

Hope you are doing well.

Hernan from Quimitronica shared some concerns regarding the controlled substances and their orders.
He says that they've been experiencing some issues - delays are mentioned, as well as that we have shared a list of products that do not correspond to their orders. They are still unclear regarding an estimated delivery time, and this can bring them serious issues with the Government, as these products are for the Legal Medicina Laboratory.

Can you support us by checking the references and orders from the Excel file he has attached please? I am also informing them below:
