KOOTENAY ULTRA PULLEY

Our Kootenay Ultra Pulley is the most functional, versatile knot-passing and high-strength tie-off pulley available. For high lines, the rigging holes allow for optimum separation of tag lines and hoist ropes for reeving variations. For English and Norwegian reeves, a greater spread between the hoist pulleys significantly reduces the chance of inadvertent spinning of the load. Separate rigging holes make rigging easier and also prevent carabiners from binding against each other. For high-strength tie-offs, the integrated sheave-lock pin inserts easily into the sheave-lock hole from its stowed axle position. The strong, durable anodized aluminum sheave is fitted with sealed ball bearings for long wear and high efficiency.

PRODUCT WEIGHT	709 G (1.6 LB)
SHEAVE TREAD SIZE	57 X 64MM (2.25 X 2.5 IN)
COLOR	ORANGE
NFPA RATING	GENERAL USE
3 SIGMA MBS	38 KN (8,543 LBF)
