PROSERIES™ ALUMINUM KEY-LOCK CARABINERS

Highly Advanced NFPA General-Use Rescue Carabiner. Patented.

Rescuers working in the most demanding circumstances will appreciate our ProSeries Aluminum Carabiners, the first aluminum carabiners to meet NFPA strength requirements for General Use. Combining high performance with minimum weight, these carabiners significantly reduce the weight of a rescuer's gear while maintaining the highest possible margin of safety. The patented key-lock design eliminates snagging when removing the carabiner from your harness, and a redesigned gate provides a full 1.1 inch (28 mm) opening on the standard size version and a 2.1 inch (53 mm) opening on the XL version. Gate choices include the traditional Screw-Lock, our easy-to-open-with-one-hand Auto-Lock, our innovative Manual-Lock, and an ANSI-certified (Z359.12) gate SKU #300273. All of the XL carabiners have a removable keeper pin.

Every carabiner is proof loaded. Serial numbers on every carabiner.

ProSeries	Major Axis	Minor Axis	Major Axis, Gate Open
300221	44 kn	13 kn	14 kn
300233	40 kn	11 kn	14 kn
300262	40 kn	11 kn	14 kn
300241	40 kn	16 kn	11 kn
