From the Workshop to Fortune

ORIGINS

A farmer with an engineer's vision

Ferruccio Lamborghini was born in **1916 in Renazzo, Italy**, into a family of farmers from the Emilia-Romagna region. From a young age, his passion for mechanics took him far beyond the fields.

- In **1948**, he founded **Lamborghini Trattori**, which quickly became one of the largest agricultural equipment manufacturers in Italy during the postwar economic boom
- His business success allowed him to buy the finest luxury Ferraris on the market
- While examining his own cars, he discovered something surprising: the Ferrari clutch was **identical** to the one he himself manufactured for his tractors
