HITACHI

Sept 24th, 2026

DIAN / INTEK
Bogotá, Colombia

Dear Fabian Espinel,

This letter is to certify that Wilber Antunez, based in El Paso, TX, USA, is an employee of Hitachi High-Tech America, Inc. (HTA). To attain the title of service engineer, Wilber has been trained in and shows proficiency with the Hitachi electron microscope product line. In this role, he provides service, and applications support to our customers throughout Mexico, Central America, and the Caribbean. This support includes all manners of installation, service, and maintenance activities. He also participates in regular continuing education events. As with all Hitachi engineers, Wilber can solicit and leverage the input of other engineers from our organization, other Hitachi groups, and the factory team, as required.

Please address any questions about this employee and his status with HTA to me, Maurilio Martinez, via email or phone.

Best regards,

Maurilio Martinez
Director, Core Technology
