PV SPECIAL FUSE

Insulated enclosure, safe upgrade

Panshi quality
High quality workmanship
Six functional features
Reliable quality
LED highlight chip
Flame retardant shell
Easy installation
Complete specifications
Small size

PV DC fuse

Melt my "core" to protect you

Pull out plug design

Used with fusible core, easy to install and beautiful in appearance

Indication window

In case of potential safety hazard,
the red light will be on

Fuse base and inner core perfect match

Is the fuse good
Fused core is very important

Exquisite exterior, explosion-proof interior

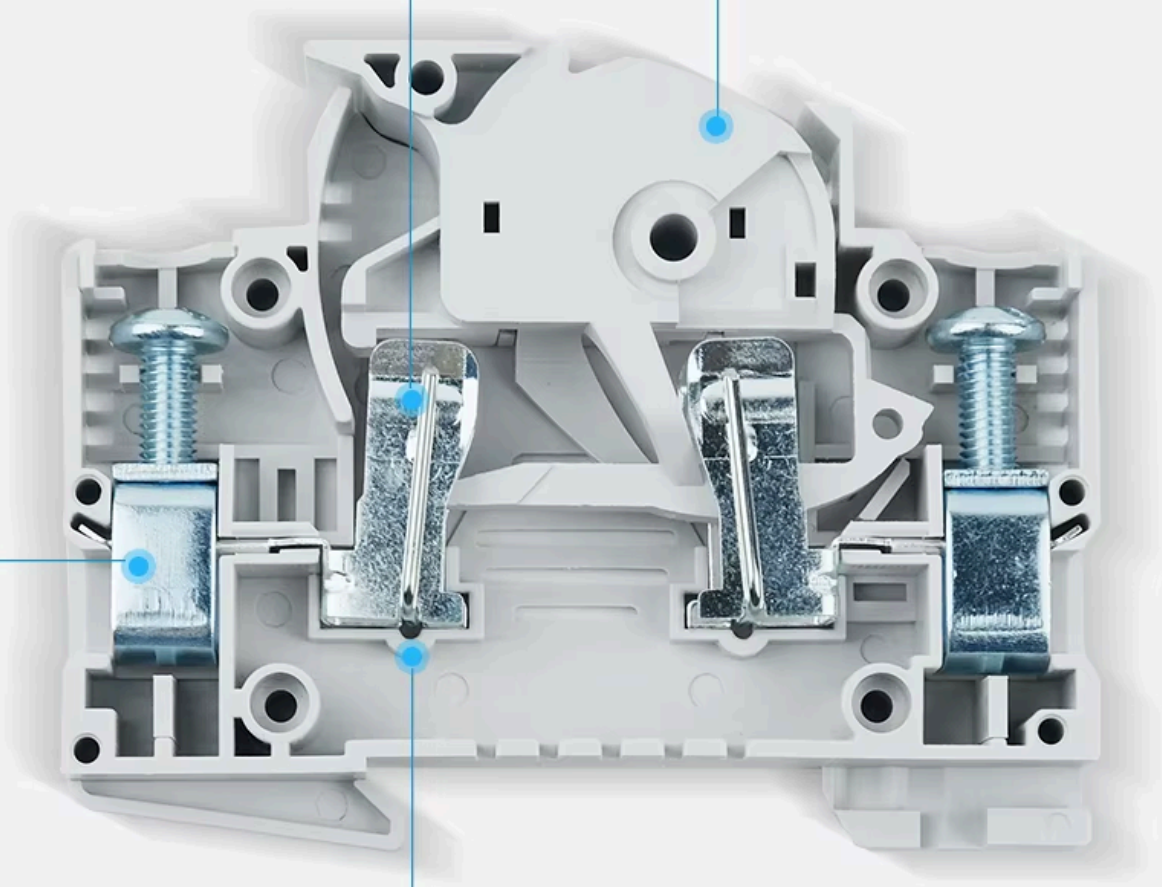

More convenient guide rail installation

Seiko quality safe choice

Silver plating of red copper
Excellent conductivity

Flame retardant materials
Safe and high temperature resistant

Environmentally friendly galvanizing
More guaranteed corrosion resistance

Strong spring
Durable and better

Authoritative certification quality assurance

Quality management system certificate
Environmental Management System Certificate
Occupational Health and Safety Management System Certificate

PRODUCT PARAMETERS

See all the beautiful details

Product brand TOMZN	Product name PV DC FUSE
Product model TOPV-32,TOPV-32X（With lamp）	
Rated voltage DC1100V	Temperature range -40°C~90°C
Product poles 1P / 2P	Segmentation capability 30KA

Installation method

TH35-7.5 guide rail installation

Rated current

6、10、15、20、25、30A

Compliance with standards

IEC/EN60947-1、IEC/EN60947-3

Overall dimensions

85.5X18X65MM(1P) 85.5X36X65MM(2P)

1PWith lamp

2P positive pole with lamp/negative pole without lamp

1P without lamp

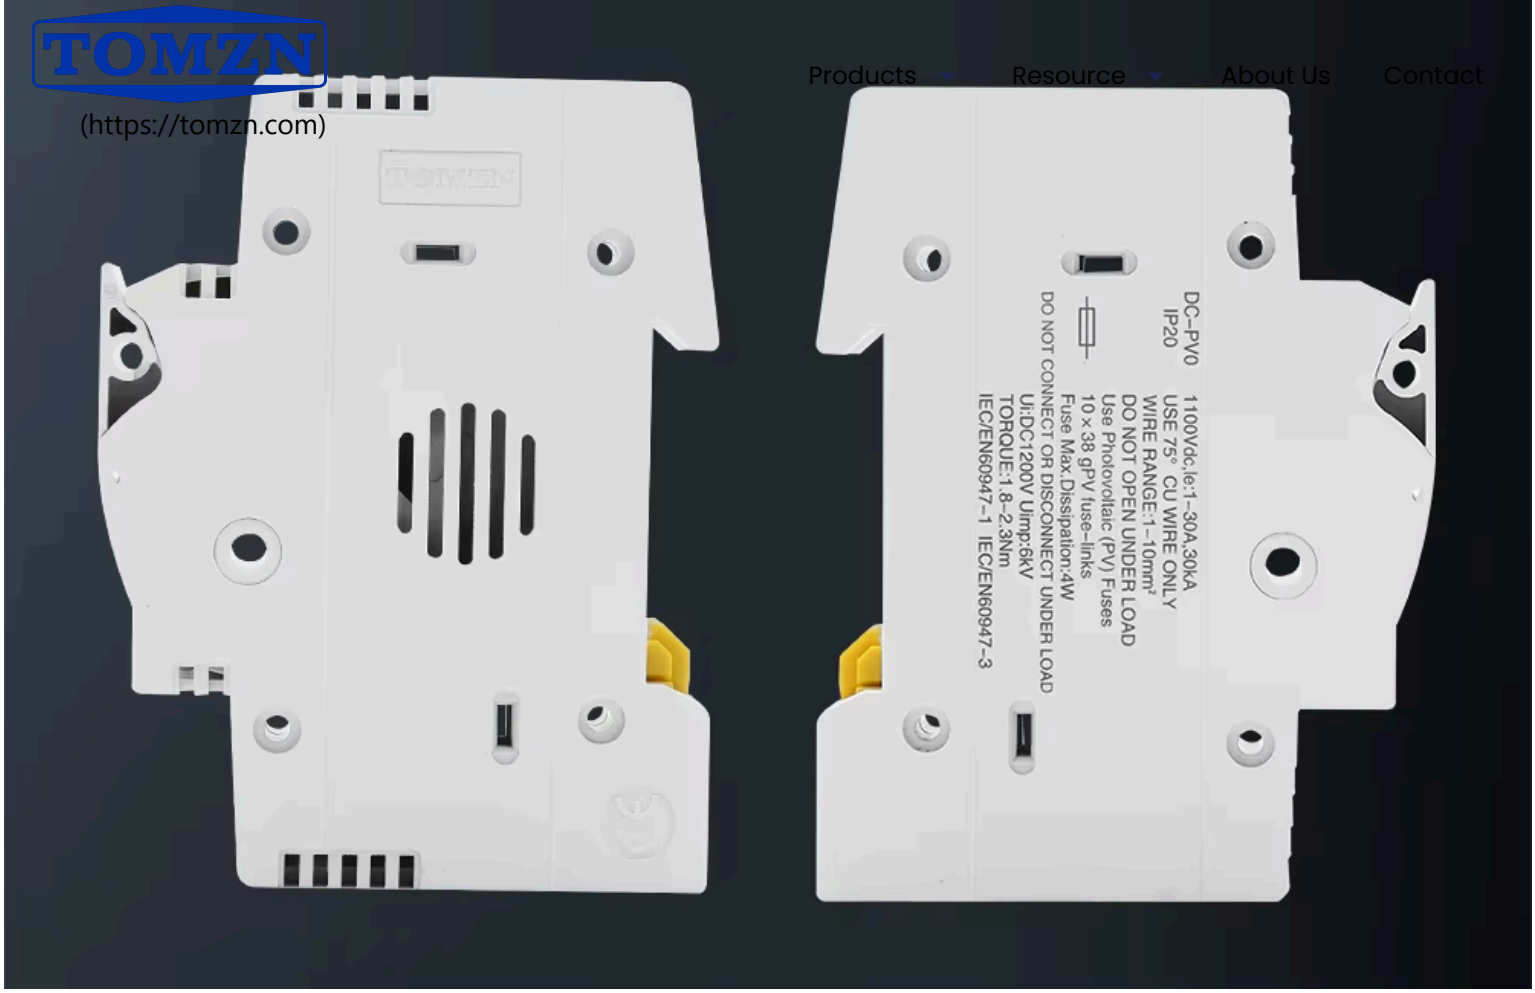

2P without lamp

TOPV-32
DC1100V
10x38
Do not
open under load

DC-PV0
IP20
1100Vdc,Ie:1-30A,30kA
USE 75° CU WIRE ONLY
WIRE RANGE:1-10mm²
DO NOT OPEN UNDER LOAD
Use Photovoltaic (PV) Fuses
10 x 38 gPV fuse-links
Fuse Max.Dissipation:4W
DO NOT CONNECT OR DISCONNECT UNDER LOAD
Ui:DC1200V Uimp:6kV
TORQUE:1.8-2.3Nm
IEC/EN60947-1 IEC/EN60947-3

We are guided by quality and innovation, providing customers with high-quality new energy products.
