Now Available from BIOLOGIX®

NEW—Extended 3mL Transfer Pipets!

More Accurate

Transparent, thicker pipet walls, evenly distributed thickness, and molded graduation marks ensure consistent pipetting.

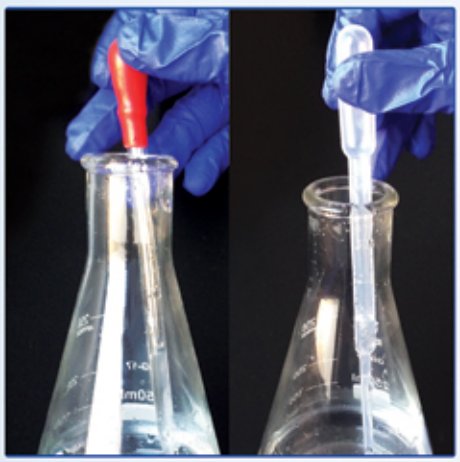

More Reliable

Constructed of durable, high quality polyethylene material, packaged individually, and gamma radiation sterilized.

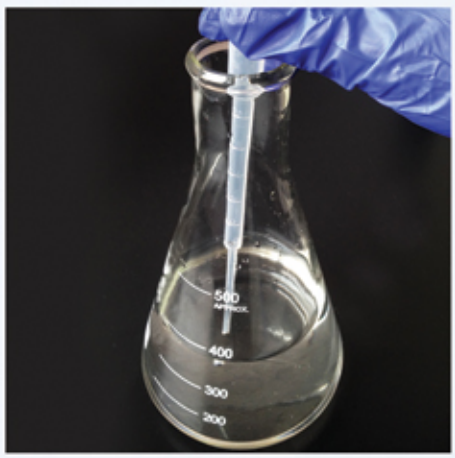

More Convenient

Integrated pipet and bulb replace awkward rubber bulbs and Pasteur pipets; extended, flexible stems allow easy pipetting from even the deepest solution basins.

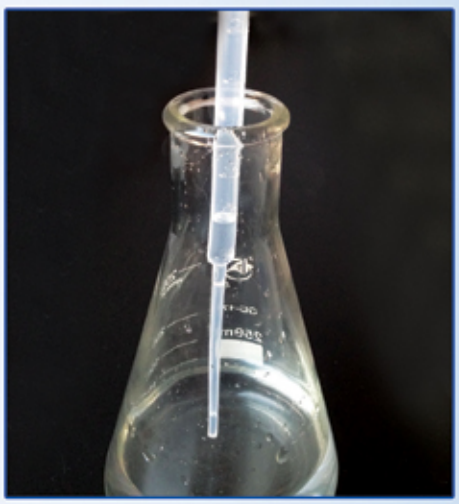

What can the extended transfer pipet do?

Replaces rubber bulbs and glass pipets, reducing the likelihood of contamination

Makes pipetting from deeper basins easier

Aspirates and dispenses liquids evenly, without retention
